By Mr. CLELAND (for himself, Ms. SNOWE, Mr. SCHUMER, and Mr. HOLLINGS):

S. 1192. A bill to amend the Internal Revenue Code of 1986 to provide a tax credit for modifications to intercity buses required under the Americans with Disabilities Act of 1990; to the Committee on Finance.

Mr. CLELAND. Mr. President, in the summer of 1990, President George Bush signed the Americans with Disabilities Act, ADA, into law saying, “Let the shameful wall of exclusion finally come tumbling down.” With intercity buses playing an important role in transporting millions of passengers throughout the country, we must ensure the means are available for all Americans to access this transportation mode. That is why I am introducing, along with Senators SNOWE, HOLLINGS, and SCHUMER, a bill to provide tax credits to intercity bus companies which purchase coaches in compliance with the ADA. Our bill expands a current tax credit to give bus owners a 50 percent tax credit of the cost of purchasing and installing hydraulic wheelchair lifts and other devices to improve accessibility.

As my colleagues know, I have long been a proponent of ensuring accessibility. In fact, while I was a member of the Georgia State Senate in the early 1970s, I sponsored a bill to make public facilities accessible to the disabled, and this bill became law. Georgia was a national leader at that time, and I have been pleased to see the changes throughout the country with regard to accessibility over the past three decades. However, there is more that can and should be done.

With their reliability, safety and low cost, over the road buses are the preferred mode of transportation for millions of Americans, and with the 2012 deadline to have all over the road buses be wheelchair accessible approaching, it is time for Congress to aid in meeting this mandate. The Transportation Research Board estimates that the annual coast of upgrading and replacing the over the road bus fleet could average \$25–\$27 million, not to mention the extra training and maintenance costs. At the heart of the intercity bus industry are small businesses, on which this deadline would impose a significant toll. If these small businesses can not meet this deadline, the rural communities that have no other means of transportation will suffer, or large portions of the upgrade costs will be
